**18.**

Any decision of the Commissioner, pursuant to section 16 of the Act, to refuse to recognize a person as a patent agent shall be forthwith entered in the register of patent agents and published in the Canadian Patent Office Record, and a copy shall be sent by registered mail to the person referred to in the decision.

**19.**

(1) When the Commissioner makes a decision pursuant to section 16 of the Act that a person be refused recognition as a patent agent, any correspondence respecting an application sent by the Commissioner or by the Patent Office to that person within the six-month period preceding the date of the decision and to which no reply has been made by that date is deemed not to have been sent to the applicant.

(2) An application filed by a person who has been refused recognition as a patent agent by the Commissioner or an application that includes an appointment of such a person as patent agent of the applicant or as associate patent agent shall be treated by the Commissioner as an application filed by the applicant or by the patent agent who appointed the associate patent agent.

**20. Appointment of Patent Agents**

(1) An applicant who is not an inventor shall appoint a patent agent to prosecute the application for the applicant.

(2) The appointment of a patent agent shall be made in the petition or by submitting to the Commissioner a notice signed by the applicant.

(3) The appointment of a patent agent may be revoked by submitting to the Commissioner a notice of revocation signed by the applicant or that patent agent.

**21.**

Any act by or in relation to a patent agent or an associate patent agent shall have the effect of an act by or in relation to the applicant.

**23.**

Where an applicant is not the inventor and no patent agent residing in Canada has been appointed or any such appointment has been revoked, the Commissioner shall by notice requisition either that the applicant appoint a patent agent residing in Canada or, where a non-resident patent agent has been appointed, that the non-resident patent agent appoint an associate patent agent, within the three-month period after the date of the notice.

**24.**

Where a patent agent withdraws from practice, any patent agent who is the successor to that patent agent and who has so established to the Commissioner, shall be considered to be the appointed patent agent until another patent agent is appointed, in respect of any application in which the patent agent who has withdrawn from practice has been appointed.

**25. Time**

Except where other times are provided by the Act or these Rules, the time within which action must be taken by an applicant where the Commissioner, by notice, requisitions the applicant to take any action necessary for compliance with the Act or these Rules is the three-month period after

the requisition is made.

**26.**

(1) Subject to subsection (2) and any other provision of these Rules, except in respect of Part V, the Commissioner is authorized to extend the time fixed by these Rules or by the Commissioner under the Act for doing anything, subject to both the extension being applied for and the fee set out in item 22 of Schedule II being paid before the expiry of that time, where the Commissioner is satisfied that the circumstances justify the extension.

(2) Where, for the purposes of paragraph 73(1)(a) of the Act, the Commissioner establishes a shorter period for replying in good faith to any requisition made by an examiner in connection with an examination, the Commissioner is not authorized to extend the time for replying beyond six months after the requisition is made.

(3) Except in respect of Part V, if the appropriate fee under subsection 3(3), (5), (7), (8) or (9) in respect of a proceeding or service is either a small entity fee or a standard fee, and if, after the coming into force of this subsection, a person pays the small entity fee but the applicant or patentee later becomes aware that the standard fee should have been paid, the Commissioner is authorized to extend the time fixed by these Rules for payment of the appropriate fee if the Commissioner is satisfied that the circumstances justify the extension.

(4) An extension may be authorized under subsection (3) only if the following conditions are satisfied:

(a) the applicant or patentee files a statement that, to the best of their knowledge, the small entity fee was paid in good faith and the subject application for the extension is being filed without undue delay after the applicant or patentee became aware that the standard fee should have been paid;

(b) the applicant or patentee pays the difference between the amount of the small entity fee that was paid and the standard fee as set out in Schedule II to the Patent Rules as they read at the time the small entity fee was paid; and

(c) the applicant or patentee pays the fee set out in item 22 of Schedule II in respect of each fee that is the subject of an application for such an extension.

SOR/2007-90, s. 4.

### **26.1**

(1) If, after the coming into force of this subsection, an applicant fails to comply with a notice of allowance requisitioning payment of the applicable final fee set out in paragraph 6(a) of Schedule II only because they paid in error the small entity fee instead of the standard fee referred to in paragraph 3(4)(b), the Commissioner is authorized to extend the 12-month period prescribed by section 98 or 152 to make a request for reinstatement in respect of that failure if the Commissioner is satisfied that the circumstances justify the extension.

(2) An extension may be authorized under subsection (1) only if the following conditions are satisfied:

(a) the applicant or patentee files a statement that, to the best of their knowledge, the small entity fee was paid in good faith and the subject application for the extension is being filed without undue delay after the applicant or patentee became aware that the standard fee should have been paid; and

(b) the applicant or patentee pays the difference between the amount of the small entity fee that was paid and the standard fee as set out in subparagraph 6(a)(i) of Schedule II to the Patent Rules as they read at the time the small entity fee was paid.

SOR/2007-90, s. 5.

### **26.2**

For greater certainty, if a time is fixed for doing anything by a provision of these Rules, the time fixed for doing that thing is the time that is fixed by that provision as extended by the Commissioner under section 26 or 26.1.

SOR/2007-90, s. 5.

### **27.**

Except in respect of Part V, the Commissioner is authorized to extend the time fixed by subsection 18(2) of the Act if the fee set out in item 22 of Schedule II has been paid and the Commissioner is satisfied that the circumstances justify the extension.

SOR/2007-90, s. 6.

## **28. Examination**

(1) Subject to subsection (2), the Commissioner may advance an application for examination out of its routine order upon the request of any person who pays the fee set out in item 4 of Schedule II, where the Commissioner determines that failure to advance the application is likely to prejudice that person's rights.

(2) In respect of an application filed on or after October 1, 1989, subsection (1) only applies if the application is open to public inspection under section 10 of the Act and a request for examination has been made pursuant to subsection 35(1) of the Act.

## **29.**

(1) Where an examiner examining an application in accordance with section 35 of the Act or the Act as it read immediately before October 1, 1989 has reasonable grounds to believe that an application for a patent describing the same invention has been filed, in or for any country, on behalf of the applicant or on behalf of any other person claiming under an inventor named in the application being examined, the examiner may requisition from the applicant any of the following information and a copy of any related document:

- (a) an identification of any prior art cited in respect of the applications;
- (b) the application numbers, filing dates and, if granted, the patent numbers;
- (c) particulars of conflict, opposition, re-examination or similar proceedings; and

(2) Where an examiner examining an application in accordance with section 35 of the Act or the Act as it read immediately before October 1, 1989 has reasonable grounds to believe that an invention disclosed in the application was, before the filing date of the application, published or the subject of a patent, the examiner may requisition the applicant to identify the first publication of or patent for that invention.

(3) Subsections (1) and (2) do not apply to any information or document that is not available or known to the applicant, provided that the applicant states the reasons why the information or document is not available or known.

**30.**

(1) Where an examiner, after examining an application, has reasonable grounds to believe that the application complies with the Act and these Rules, the Commissioner shall notify the applicant that the application has been found allowable and shall requisition the payment of the applicable final fee set out in paragraph 6(a) or (b) of Schedule II within the six-month period after the date of the notice.

(2) Where an examiner examining an application in accordance with section 35 of the Act or the Act as it read immediately before October 1, 1989 has reasonable grounds to believe that an application does not comply with the Act or these Rules, the examiner shall inform the applicant of the application's defects and shall requisition the applicant to amend the application in order to comply or to provide arguments as to why the application does comply, within the six-month period after the requisition is made or, except in respect of Part V, within any shorter period established by the Commissioner in accordance with paragraph 73(1)(a) of the Act.

(3) Where an applicant has replied in good faith to a requisition referred to in subsection (2) within the time provided but the examiner has reasonable grounds to believe that the application still does not comply with the Act or these Rules in respect of one or more of the defects referred to in the requisition and that the applicant will not amend the application to comply with the Act and these Rules, the examiner may reject the application.

(4) Where an examiner rejects an application, the notice shall bear the notation "Final Action" or "Décision finale", shall indicate the outstanding defects and shall requisition the applicant to amend the application in order to comply with the Act and these Rules or to provide arguments as to why the application does comply, within the six-month period after the requisition is made or, except in respect of Part V, within any shorter period established by the Commissioner in accordance with paragraph 73(1)(a) of the Act.

(5) Where in accordance with subsection 30(4) the applicant amends the application or provides arguments and the examiner has reasonable grounds to believe that the application complies with the Act and these Rules, the Commissioner shall notify the applicant that the rejection is withdrawn and that the application has been found allowable and shall requisition the payment of the applicable final fee set out in paragraph 6(a) or (b)

of Schedule II within the six-month period after the date of the notice.

(6) Where the rejection is not withdrawn pursuant to subsection (5), the rejection shall be reviewed by the Commissioner and the applicant shall be given an opportunity to be heard.

(7) If after a notice is sent in accordance with subsection (1) or (5) but before a patent is issued the Commissioner has reasonable grounds to believe that the application does not comply with the Act or these Rules, the Commissioner shall

- (a) notify the applicant of that fact;
- (b) notify the applicant that the notice is withdrawn;
- (c) return the application to the examiner for further examination; and
- (d) if the final fee has been paid, refund it.

(8) Subsection (7) does not apply in respect of an application that has been deemed to be abandoned under section 73 of the Act unless the application has been reinstated in respect of each failure to take an action referred to in subsection 73(1) of the Act or section 97 or 151 of these Rules.

(9) After a notice is sent to the applicant in accordance with subsection (7),

- (a) the notice that was sent in accordance with subsection (1) or (5) is deemed never to have been sent; and
- (b) sections 32 and 33 do not apply unless a further notice is sent to the applicant in accordance with subsection (1) or (5).

(10) If an application has been abandoned under paragraph 73(1)(f) of the Act and reinstated,

- (a) for the purposes of this section and section 32, any previous notice that was sent in accordance with subsection (1) or (5) is deemed never to have been sent; and
- (b) if the final fee has already been paid and has not been refunded, any further notice sent in accordance with subsection (1) or (5) shall not require payment of the final fee.

(11) Subsection 26(1) does not apply in respect of the times set out in subsections (1) and (5).

SOR/2007-90, s. 7.

### **31. Amendments**

- (a) where the rejection is withdrawn in accordance with subsection 30(5);
- (b) where the Commissioner is satisfied after review that the rejection is not justified and the applicant has been so informed;

- (d) by order of the Federal Court or the Supreme Court of Canada.

### **32.**

(1) Except as otherwise provided by the Act or these Rules, after the applicant is sent a notice pursuant to subsection 30(1) or (5), no amendment, other than an amendment to correct a clerical error that is obvious on the face of the application, may be made to the application unless the fee set out in item 5 of Schedule II is paid.

(2) Except as otherwise provided by the Act or these Rules, after the applicant is sent a notice pursuant to subsection 30(1) or (5), no amendment may be made to the application that would necessitate a further search by the examiner in respect of the application or that would make the application not comply with the Act or these Rules.

### **33.**

(1) Except as otherwise provided by the Act or these Rules, no amendment may be made to an application after payment of the final fee referred to in subsection 30(1) or (5).

(2) If an application has been abandoned under paragraph 73(1)(f) of the Act and reinstated,

- (a) subsection (1) does not apply; and

Clerical errors in any document relating to an application, other than a specification, a drawing or a document effecting a transfer or a change of name, which are due to the fact that something other than what was obviously intended was written, may be corrected by the applicant.

**36. Unity of Invention**

For the purposes of section 36 of the Act or of the Act as it read immediately before October 1, 1989, an application does not claim more than one invention if the subject-matters defined by the claims are so linked as to form a single general inventive concept.

**37. Transfers and Changes of Name [Repealed, SOR/2007-90, s. 9]**

**38.**

No transfer of a patent or an application to a new owner shall be recognized by the Commissioner unless a copy of the document effecting the transfer from the currently recognized owner to the new owner has been registered in the Patent Office in respect of that patent or application.

**39.**

No change in the name of the owner of a patent or an application shall be recognized by the Commissioner unless evidence of the change in the name of the owner, by way of affidavit, statutory declaration or a copy of a document effecting the change, has been registered in the Patent Office in respect of that patent or application.

**40.**

Registration of a transfer shall not of itself operate as a revocation of an appointment of a patent agent or as an appointment of a representative.

**41.**

A patent shall not be granted to a transferee of an application unless the request for registration of the transfer is filed on or before the date on which the final fee is paid in accordance with subsection 30(1) or (5) or, if the final fee is refunded in accordance with subsection 30(7), on or before the date on which the final fee is paid again in accordance with subsection 30(1) or (5).

#### **46. Secret Applications and Patents**

Where the Minister of National Defence gives a certificate in accordance with subsection 20(7) of the Act in relation to an application, all entries in any way concerning the application that may appear in any ordinary register maintained in the Patent Office are wholly obliterated, and no further entry concerning the application or any patent granted on the basis of the application shall be made in any such register until that Minister waives the benefits of that section with respect to such application or patent.

#### **47.**
