## **Chapter one. GENERAL PROVISIONS**

### **Art. 1. Subject**

(1) *(prev. text of Art. 1 - SG 17/03)* This law shall provide the conditions and the order for registration of industrial design, the rights ensuing from it and the protection of these rights.

(2) *(new, SG 17/03, revoked - SG 35/10, in force from 12.08.2010)*

### **Art. 2. Application sphere**

(1) This law shall be applied with regard to the Bulgarian individuals and corporate bodies as well as with regard to foreign individuals and corporate bodies from states participating in international agreements to which the Republic of Bulgaria is a party.

(2) With respect to foreign individuals and corporate bodies from other states this law shall be applied under the conditions of mutuality that is to be assessed by the Patent department.

### **Art. 3. Industrial design**

(1) In the sense of this law industrial design called hereinafter "design" shall be the visible outer appearance of a product or part of it determined by the peculiarities of the form, the lines, the depiction, the ornaments, the colour blend or a combination thereof.

(2) A product in the sense of para 1 shall be any article obtained in industrial or craft way, including parts designated for assembly in a composite article, sets or composition of articles, packing, graphic symbols and printed fonts except software.

### **Art. 4. Right to authorship**

(1) The person created design shall have the right to authorship under this law. This right shall be termless and not transferable and shall benefit protection under this law regardless of the protection that it could benefit also from other laws.

(2) When the design has been created by two or more persons the right to ownership occurs for all the persons and they shall be co-authors. Co-authors shall not be the persons who have rendered only technical, material or other assistance to the author.

(3) The author or the co-authors of the design shall be pointed out in the certificate for registration and in the publication about it which shall be monitored by the Patent department.

(4) The Patent department shall enter into the State register of the industrial design the actual author established with a court decision entered into force about a dispute for authorship and co-authorship.

#### **Art. 5. Representation**

(1) Any person who according to this law has the right to implement activities before the Patent department shall be able to make this personally or through a local representative of industrial property.

(2) (*amend. SG 43/05*) Persons who are not with permanent address or do not have headquarters in the Republic of Bulgaria shall implement activities before the Patent department through a local representative of industrial property.

#### **Art. 6. Fees** (*amend. SG 73/06, in force from 06.10.2006; amend. and suppl. SG 35/10, in force from 12.08.2010*)

The Patent department shall collect fees for: declaring, expertise; priority; registration; issuing of certificate; renewal of the registration; entering; correction of mistakes; appealing against refusals; deleting of registration; extension of terms; publication of the registration and the entries, deferment of the publication; submitting an application for international registration; redirection of application for design to the Community; information about declared or registered design; information or excerpts from the State register of industrial designs, in extent determined in a tariff approved by the Council of Ministers.

#### **Art. 7. File**

(1) (*suppl. - SG 35/10, in force from 12.02.2011*) The Patent department shall compile and maintain a file on paper and electronic carrier for each design including the whole documentation about the registration.

(2) The Patent department shall concede to third parties information about declared design by an order determined by the chairman.

(3) The information of para 2 shall contain only these data that are published if the design is registered.

**Art. 8. State register of the industrial designs** (*amend. - SG 35/10, in force from 12.08.2010*)

The State register of the industrial designs shall be kept and maintained by the Patent Office and shall contain the following data:

1. number and filing date of the application for registration of industrial design;
2. image of the industrial design;
3. list of the products and their names, preceded by the number of the classes and subclasses according to the International Classification for Industrial Designs under the Locarno Agreement and grouped in an appropriate way;
4. number of designs;
5. registry number and date of registration;
6. number of the official bulletin of the Patent Office and date of publication of the application;
7. information about deferment of the publication;
8. information for claimed priority - number, date and country of the priority application, if claimed;
9. name and address of the applicant, respectively of the holder of the design;
10. name of the author of the design;
11. name and address of the industrial property representative, if authorized;
12. term of validity of the registration;
13. renewal of the registration;
14. legal status of the registration;
15. information of pending procedures for cancellation of the registration of the design filing, applicant, decision in force;
16. other information design, contractual licenses, securities, registered pledges, bankruptcy.

**Art. 9. Access to the State register of the industrial designs** (*amend. - SG 35/10, in force from 12.02.2011*)

The State register of the industrial designs shall be public and shall be published in the internet site of the Patent Office. It shall be kept on a paper carrier and as an electronic database, operated by an information system. Every person shall be able to require information or excerpt of its contents.

**Chapter two. LEGAL PROTECTION**

## **Section I. Registration**

### **Art. 10. Acquiring of right over a design**

(1) Right over a design shall be acquired through its registration at the Patent department assumed from the date of submitting the application for registration.

(2) The right over a design shall be exclusive.

### **Art. 11. Grounds for registration**

(1) Registered shall be a design that is new and original.

(2) Not registered shall be:

1. a design contradicting with the public order or the good ethics;
2. (*amend. SG 43/05*) a design which peculiarities are grounded only on the technical function of the product;
3. a design which peculiarities are grounded on the need the product in which is included or to which has been applied the design to be mechanically connected or put into, around or opposite to another product so that both the products to implement their functions, except a design which objective is to make possible multiple assembling or connecting of mutually substitutable products in a modular system.

(3) (*new, SG 17/03; amend. - SG 73/06, in force from 06.10.2006; revoked SG 35/10, in force from 12.08.2010*)

### **Art. 12. Novelty**

(1) The design shall be new if before the date of submitting the application, respectively before the date of priority another identical design is not known to have become accessible through publications, registrations or announcement in any other way wherever in the world.

(2) (*amend. SG 43/05*) The designs shall be considered identical if their peculiarities differ only in insignificant elements.

### **Art. 13. Originality**

(1) (*amend. SG 43/05; prev. text of Art. 13 - SG 73/06, in force from 06.10.2006*) The design shall be considered original if the overall impression it creates for the informed user differs from the overall impression created by a design that has become publicly accessible before

the date of submitting the application for registration or when a priority is claimed before the date of priority.

(2) (*new - SG 73/06, in force from 06.10.2006*) At assessment of the originality shall be taken into account the designer's extent of freedom at creation of the design.

**Art. 13a. Novelty and Originality of a Design of a Product that is Part of a Complex Product** (*new - SG 35/10, in force from 12.08.2010*)

When the design is applied to or included in a product that is component of a complex product, it shall be deemed novel and original if:

1. the component of the complex product remains visible during the normal use of the said product, and
2. the visible features of the component meet the novelty and originality requirements.

**Art. 14. Announcement not affecting the novelty** (*amend. SG 43/05*)

The announcement of a design - subject to application for registration, shall not affect its novelty when this announcement is made in 12 months term before the date of submitting the application, respectively the priority, by:

1. the author, his legal successor or a third person as a result of information or activity of the author or of his legal successor;
2. third person damaging the author.

**Art. 15. Term of effect of the registration**

(1) The term of effect of the registration of a design shall be 10 years after the date of submitting the application.

(2) The registration shall be possible to be renewed for three subsequent periods of 5 years.

**Art. 16. Right to declaration and right to registration**

(1) (*suppl. SG 43/05*) The right to declaring a design shall belong to the author or his legal successor. When the right to declaring belongs to several persons it shall be exercised jointly. The refusal of one person or several of the persons to participate in the declaring shall not be impediment for the others. The refusal has to be explicit and in writing.

(2) When the design is official according to Art. 17, para 1 the right to declaring shall belong to the employer or to the one made the order.

(3) The right to declaring in the case of para 2 shall pass to the author if in 3 months term after the notification in writing about the created design the employer, respectively the orderer, does not submit an application unless between them other has been agreed.

(4) The right to declaring shall be possible to belong jointly to the employer, respectively the orderer, and the author if this has been agreed.

(5) It shall be considered that the applicant has right to declaring until other is established by judicial order.

(6) The right to registration shall belong to the first declarer.

**Art. 17. Official design**

(1) The design shall be official when it has been created in implementation of obligations in employment legal relation or as order unless in the contracts other has been agreed.

(2) The author who has created official design shall have the right to additional remuneration.

(3) The remuneration of the author shall be possible to be determined as part of the incomes received from the use of the design as one time sum or in another way.

(4) When the remuneration determined as one time sum occurs obviously disproportional to the incomes received from the use of the design the author shall be able to require increase of the remuneration. If agreement is not reached between the parties the dispute shall be resolved by the court as it is fair.

**Art. 18. Scope of the legal protection** (*amend. SG 43/05; suppl. - SG 73/06, in force from 06.10.2006; amend. - SG 35/10, in force from 12.08.2010*)  
The scope of the legal protection shall be determined by the image, respectively the images of the registered design and shall cover every design that does not produce on the informed user a different overall impression.

**Art. 19. Contents of the right over a design**

(1) The right over a design shall include the right of its owner to use the design, to dispose with it as well as to prohibit to third parties without his consent to copy or to use in the commercial activity a design included in the scope of protection.

(2) The use of the design of para 1 shall include the production, the offering and the exhibiting on the market or the use of a product in which is included or to which has been attached design of the scope of protection as well as import, export or preservation of the same product for these purposes.

(3) (*amend. - SG 73/06, in force from 06.10.2006*) The right shall have effect with regard to third good faith persons from the date of publishing the registration of the design.

#### **Art. 20. Restrictions of the rights over a design**

The right of Art. 19 shall not cover:

1. the use of design when it is implemented for personal needs or with experimental objective;
2. the use of design with objective citing or training if this use is compatible with the good faith commercial practice and does not damage without grounds the normal use of the design and under the condition that the source is pointed out;
3. the use of the design in foreign land, sea or air vehicles which temporary or occasionally enter the territory of the country and in which it is applied exclusively for their needs as well as at the import of spare parts and auxiliary devices with objective their use at repair of these vehicles.

#### **Art. 21. Depletion of the right over a design**

(1) (*suppl. - SG 73/06, in force from the date of coming into effect of the Treaty of Accession of the Republic of Bulgaria to the European Union*) The owner of the right over a design cannot prohibit the use of products pointed out in the registration in which is included or to which has been applied the registered design when the products are released on the market on the territory of the Member States of the European Union, respectively of the European Economic Area by him or with his consent.

(2) The provision of para 1 shall not be applied when the owner of the right over a design is able to obstruct following sales when the products are changed or falsified.

**Art. 22. Possession of the right over a design**

(1) The right over a design shall be possible to belong to one or more persons.

(2) When the right over a design belongs to two or more persons any co-owner shall be able to use it without the consent of the other and without accounting for this before them unless other has been agree among them in writing.

**Art. 23. Previous use**

A person who till the date of submitting an application for registration of a design has use in good faith the design on the territory of the Republic of Bulgaria or who has implemented the necessary preparation for this shall have the right to use it in the same extent also after this date.

**Section II. Disposition**

**Art. 24. Transfer**

(1) All the rights under this law as far as other is not provided in it can be transferred.

(2) If the right over a design is owned by two or more persons it shall be transferred with the consent of all co-owners.

(3) *(new - SG 43/05)* At multiple application shall be admitted transfer of the right over all designs or over some of them

(4) *(prev. (3) - SG 43/05; amend. - SG 35/10, in force from 12.08.2010)*  
The transfer shall be entered in the State register of industrial design upon application by one of the parties to which shall be attached the document for transfer and it shall have effect with regard to third parties from the date of entering.

**Art. 25. Transfer of the right ensuing from the previous use**

The right ensuing from the previous use shall be possible to be transferred only with the commercial enterprise where it has emerged.

**Art. 26. License contract**

(1) *(suppl. SG 43/05)* The owner of the right over a design shall be able to permit the use of the design with a license contract. A permission

for the use of a design which is joint ownership of two or more persons shall be given with written consent of all the co-owners unless other has been agreed among them. At multiple application the right to use can be conceded with regard to all designs or some of them.

(2) The license can be exclusive or not exclusive. When other has not been agreed the license shall be considered not exclusive.

(3) The grantor of the license shall not have right to concede licenses with the same subject to other persons. He shall have right to use the license himself only if this is explicitly agreed.

(4) (*amend. SG 43/05; amend. - SG 35/10, in force from 12.08.2010*) The license contract entered in the State register of the industrial designs upon application by one of the parties. To the application shall be attached an excerpt of the contract. The patent department shall issue certificate for the entering.

(5) The excerpt of the license contract shall contain the identification data of the license grantor and of the licensed person, the registration number of the design, the term of the contract, the signatures and/or the stamps of the parties.

(6) The license contract shall have effect with regard to third parties from the entering in the State register of the industrial designs.

**Art. 26a. Right over industrial design as subject of security** (*new - SG 43/05; amend. - SG 35/10, in force from 12.08.2010*)

(1) The right in industrial design can be subject, without notifying the defendant party, shall admit also any of the following security measures:  
1. prohibition to use the rights in the design by the owner or a licensee;  
2. prohibition to dispose of the rights in the design by the owner or by the licensee of an exclusive license.

(2) The imposition of the security measure shall be effected immediately by the bailiff pursuant to the security order of the court.

(3) The bailiff shall impose the security measure under Para 1 by filing the imposition notification with the owner of the design.

(4) The security admitted by the court shall be entered in the State

designs upon application by any of the parties to the claim. The application must contain data about the owner of the design and the person in whose favour the security has been admitted, and data about the security measure. To the application shall be attached the document for admission of the security.

(5) The security under Para 1-4 shall have effect with regard to the owner of the design or the exclusive licensee from the date of receipt of the notification for imposition of the security measure, and in respect of third parties -from the date of entry of the security into the State Register of the Industrial Designs.

**Art. 26b. Right over industrial design as subject of special pledge** (*new - SG 43/05*)

(1) (*suppl. - SG 73/06, in force from 06.10.2006*) The right over registered industrial design can be subject to special pledge. At multiple application as subject to special pledge can be conceded the right over all or over some of the designs

(2) For entering the special pledge in the State register of the industrial designs shall be applied the provisions of Art. 26-31 of the Law of special pledges. To the pledger a certificate shall be issued.

(3) The pledge shall have effect with regard to third persons from the publication in the official bulletin of the Patent department.

**Art. 26c. Right over industrial design in the bankruptcy estate** (*new - SG 43/05*)

(1) (*suppl. - SG 73/06, in force from 06.10.2006*) The right over registered industrial design shall be included in the bankruptcy estate at formed procedure for insolvency of his owner.

(2) At common industrial design in the property of the debtor shall be included only the rights according to his share.

(3) (*amend. - SG 35/10, in force from 12.08.2010*) When the rights over the industrial design are included in the bankruptcy estate this fact shall be entered in the State register of the industrial designs upon application by one of the parties in the case and it shall be published in the official bulletin of the Patent department.

### **Section III. Termination of the effect and deleting of the registration**

#### **Art. 27. Termination of the effect of the registration**

(1) The effect of the registration shall be terminated with:

1. the elapse of the term of Art. 15;
2. the refusal of the owner;
3. the termination of the corporate body - owner of the design without legal succession.

(2) (*amend. - SG 35/10, in force from 12.08.2010*) The termination of para 1, item 3 shall be implemented at request by any person.

(3) With the termination of the effect of the registration the right over the design shall be extinguished.

#### **Art. 28. Refusal of right over a design**

(1) The owner of the right over a design shall be able to refuse his right over it.

(2) The refusal of one or several of the co-owners shall not lead to termination of the legal protection.

(3) The refusal of right shall be able to be implemented with regard to all designs or some of them for which the registration has been implemented.

(4) When there is an entered license contract the refusal of right over a design shall be entered only after the owner of the right over the design presents a proof that he has notified the licensed person about his intention to refuse his right over a design. In this case the entering shall be implemented after the elapse of two months term after presenting the proof.

(5) The refusal of right over a design shall be made with a written declaration to the chairman of the Patent department.

(6) The refusal shall have effect from the date of entering in the State register of the industrial designs.

#### **Art. 29. Deleting of the registration**

(1) The registration shall be deleted at request by any person when the

design:

1. has been registered in contradiction with Art. 3 or Art. 11, para 1;
2. has been excluded from protection according to Art. 11, para 2;
3. (*amend. - SG 35/10, in force from 12.08.2010*) is identical in the sense of Art. 12, para 2 to a design that has become generally available in any way before the date of submission of the application, respectively before the priority date, anywhere in the world, or is identical to a design in an application preceding the date of the application for registration, respectively the priority date, that has been registered nationally or internationally or as a Community Design;
4. (*revoked - SG 43/05*)
5. has been registered not observing the requirements of Art. 2.

(2) (*new - SG 43/05*) Registration shall be deleted upon request of a person with legal interest when the use of the design can be prohibited pursuant to:

1. earlier copyright of this person under the Law of copyright and related rights;
2. earlier right to industrial property of this person who uses the protection under other law.

(3) (*prev. (2) - SG 43/05*) When the grounds for deleting refer to part of the designs included in a multiple application the registration shall be deleted for only this part.

(4) (*prev. (3) - SG 43/05; amend. - SG 35/10, in force from 12.08.2010*) The registration shall also be deleted when by a claim order has been established that the entered owner is not one of the persons pointed out in Art. 16, and in one month term after the court decision enters into force no application has been received for entering the actual owner.

(5) (*prev. (3), amend. SG 43/05; amend. - SG 35/10, in force from 12.02.2011*) The registration may be deleted also by the Patent Office ex officio, if the registered design does not meet the requirements of Art. 3 and Art. 11, Para 2, Item 1.

#### **Art. 30. Legal consequences of the deleting**

(1) The deleting of the registration shall have effect from the date of submitting the application.

(2) The deleting of the registration shall not affect:

1. the decision about claims for breach that have entered into force as far as they have been implemented before the deleting;
2. the license contracts as far as they have been fulfilled before the deleting unless other has been agreed.

### **Chapter three. PROCEDURES AT THE PATENT DEPARTMENT**

#### **Art. 31. Submitting an application**

(1) (*amend. - SG 35/10, in force from 12.02.2011*) The application for registration of a design shall be submitted to the Patent Office personally or through a representative, by mail, by fax or electronically. When the application was filed electronically no identification through a unique identification of the applicant or of the industrial property representative, or electronic signature in the sense of Art. 13, Para 1 of the Law on the Electronic Document and the Electronic signature shall be necessary.

(2) For the date of submitting the application shall be considered the date on which at the Patent department have been received:
