PART THREE NATIONAL TITLE OF PROTECTION

CHAPTER ONE NATIONAL PROTECTION - INVALIDITY

Article 12 Requirements for Protection

1. A design or model as defined in Article 2(1)(a) of the present Presidential Decree, shall be protected to the extent that it is new and has an individual character.

2. The protection of a design or model shall commence on the date of its registration.

3. A design or model shall be considered to be new if no identical design or model has been made available to the public before the date of filing of the application for registration, or, if priority is claimed, the date of priority. Designs or models shall be deemed to be identical if their features differ only in immaterial details.

4. A design or model shall be considered to have an individual character if the overall impression it produces on the informed user differs from the overall impression produced on such a user by any design or model which has been made available to the public before the date of filing of the application for registration, or, if priority is claimed, the date of priority.

5. In assessing the individual character the degree of freedom of the designer in developing the design or the model in relation to the technical requirements shall be taken into consideration.

6. A design or model of a product constituting a component part of a complex product shall only be considered to be new and to have individual character:

- a. if the component part, when incorporated into the complex product, remains visible during normal use of the product, and
- b. to the extent that these visible features of the component part fulfil in themselves the requirements as to novelty and individual character.

7. "Normal use" within the meaning of the above mentioned paragraph 6, shall mean any use other than maintenance, repair, or other similar services.

Article 13 Disclosure

1. For the purpose of applying Article 12.3 and 12.4 of the present Presidential Decree, a design or model shall be deemed to have been made available to the public, if it has been published following registration or otherwise exhibited, used in trade or otherwise disclosed, except where these events could not reasonably have become known in the normal course of business to the circles specialized in the sector concerned, operating within the Community, before the date of filing of the application for registration at OBI, or, if priority is claimed, the date of priority.

2. A design or model shall not, however, be deemed to have been made available to the public for the sole reason that it has been disclosed to a third person under explicit or implicit conditions of confidentiality.

Article 14 Non-prejudicial Disclosures

1. The novelty of a design or model shall not be affected in accordance with Article 12.3 of the present Presidential Decree, if the design or the model has been made available to the public during the 12-month period prior to the date of filing the application for registration, or, if priority is claimed, the date of priority for one of the following reasons:

a. the design or the model has been made available to the public by the designer, his successor in title, or a third person as a result of information provided or action taken by the designer, or his successor in title.

b. if the disclosure is a result of an abusive behaviour towards the designer or his successor in title, unless this behaviour has resulted to the registration of the design or the model.

2. The novelty of a design or model shall not be affected in case of display of the design or the model at an officially recognized international exhibition falling within the terms of the Convention on International Exhibitions signed at Paris on November 22, 1928 and ratified with Law No. 5562/1932 (Official Journal 221, A'). In such case, the disclosure to the public shall not exceed the period of 6 months prior to the date of filing at OBI and the depositor shall submit any evidence of the products so displayed to which the design or the model has been incorporated or applied subject to the

requirements of the present Presidential Decree.

Article 15 Exceptions to Protection

1. A design or model right shall not subsist, if:

- a. a design or model is contrary to public policy or to accepted principles of morality.
- b. the features of appearance of a product are solely dictated by its technical function.
- c. the features of appearance of a product must necessarily be reproduced in their exact form and dimensions in order to permit the product in which the design or model is incorporated or to which it is applied to be mechanically connected to or placed in, around, or against another product so that either product may perform its function.

2. Notwithstanding paragraph 1b and 1c above, a design or model shall be granted protection when, under the conditions set out in Article 12, this design or model makes possible the multiple assembly or connection of mutually interchangeable products within a modular system.

Article 16 Invalidity

1. A registered design or a registered model shall be declared invalid by means of a court's decision, if:

- a. the holder of the registered design or the model is neither its designer, nor its successor, nor its owner under Article 17 of the present Presidential Decree.
- b. the protected design or model does not fulfil the requirements of Articles 12 and 13 of the present Presidential Decree.
- c. the features of the product's appearance or the features of its interconnection shall not be protected in accordance with Article 15.1b and 15.1c of the present Presidential Decree.

2. For any additional matter, the provisions of paragraphs 2 and 3 of Article 15 of law No. 1733/1987 shall apply accordingly.

3. A design right may be declared invalid even after it has lapsed or has been surrendered.

4. A registered design or a registered model, which shall be declared

invalid, is deemed to have brought a priori none of the effects provided for in the present Presidential Decree. The retroactive result of the invalidation shall not affect the decisions on infringement which have acquired the force of res judicata and have been executed prior to the date of issue of the decision on invalidation nor the contracts entered before the decision on invalidation, provided that they have been executed before the issue thereof.

CHAPTER TWO ENTITLEMENT TO A DESIGN OR MODEL - TRANSFER

Article 17 Entitlement to Protection

1. The right to register a design or model shall vest in the designer or his successor in title. The person who files the application for the registration of a design or model is deemed to be its owner, without prejudice to the provisions of Article 18 of the present Presidential Decree.

2. If two or more persons have created a design or model under a common creative effort, provided that no different agreement has been concluded, the right to the design or the model shall vest in them jointly and in equal parts. Each co-owner is entitled to transfer freely his share and supervise the protection of the common registered design or model.

If two or more persons have created substantially similar designs or models independently the one from the other, the right shall vest to the person who first filed the application for registration of a design or model or to the one who has a priority right over the rest pursuant to Article 22 of the present Presidential Decree.

Article 18 Claims

1. The holder of a design or model may, if a third party has filed an application for the registration of a design or model which relates to his design or model or substantial elements thereof without his consent, demand by action against the third party the recognition on his behalf of the rights conferred by the application or, in case a

certificate for registration has been issued, its transfer. The coowner of a registered design or model may demand the recognition of his right.

2. The action taken by the holder or the co-holder shall be brought within a period of two years from the publication date of the registration of the design or the model in the Industrial Property Bulletin (EDBI). For any additional matter, paragraphs 10 and 11 of Article 6 of Law No. 1733/1987 shall apply accordingly.

Article 19 Transfer of Rights and Licensing

1. The right to the registration of a design or model and the registered design or model may be transferred upon written agreement or inherited. The transfer shall be effected upon registration of the agreement or of the certificate of inheritance in the Design and Model Register and shall be published in the EDBI.

2. The holder of a registered design or model may licence his design or model to third parties upon written agreement. This licence shall be registered in the Design and Model Register and shall be published in the EDBI.

3. For any additional matter, the provisions of Article 12.1, .2, .3, .4, .5, and .6 of law No. 1733/1987 shall apply accordingly as well as the conditions and procedure provided in Article 2.10g and Article 24 of Law No. 1733/1987 (Official Journal No. 171, A').

In case that the depositor requests a publication in colour of the design or the model, these photographs or graphic representations shall be in colour.

3. The photographs and other graphic representations shall represent clearly the deposited article alone without shadows to the exclusion of any other object, person, or animal. The deposited article must be represented at least once in the position in which it is normally used.

These data shall not be disclosed nor made accessible to the public before the expiration of the relevant period referred to in Article 20.3f of the present Presidential Decree.

2. Following a court's decision, the deferred data shall be made available to persons participating in a trial regarding the validity, the infringement or the claim of exclusive rights resulting from the protected design or model.

Article 24 Certificate of Registration - Publication

1. Four months after the filing date of the application and provided that the application for registration is regular and complete, OBI shall issue a certificate of registration of the design or the model without previously examining whether the terms provided in Articles 12, 13, 14 and 15 of the present Presidential Decree are met at the responsibility of the applicant.

2. Without prejudice to Article 23, the registered application for a design or model together with the documents attached thereto shall be published 4 months following the registration date. If a sample of the product in which a design or model is incorporated or to which it is applied has been filed pursuant to Article 20.4 of the present Presidential Decree, OBI shall mention it in the publication under a separate mention. For the purposes of publication, a publication fee shall be paid to OBI according to the conditions and procedure provided in Article 2.10g and Article 24 of Law No. 1733/1987.

3. As of the publication date of the application or the expiration thereof or interruption of the time of the deferred publication, third parties shall be entitled to request information and copies of the application, the description, the designs, or the models and of any other related element.

4. Elements of the registered application shall be published in the Industrial Property Bulletin.

5. Any publication in the Industrial Property Bulletin shall be made in a separate issue titled "Designs and Models". CHAPTER FOUR RIGHTS CONFERRED WITH THE DESIGN OR THE MODEL

Article 26 Content of the Right

1. The registration of a design or model shall confer on its holder the exclusive right to use it and to prevent any third party not having his consent from using it.

2. The aforementioned use shall cover, in particular, the making, offering, putting on the market, importing exporting or using of a product in which the design is incorporated or to which it is applied, or stocking such a product for those purposes.

3. The rights conferred with a design or model upon registration shall not extend to:

- a. acts done privately and for non-commercial purposes;
- b. acts done for experimental or re-search purposes;
- c. acts of reproduction of a design or model for the purposes of making citations or of teaching, provided that such acts are compatible with fair trade practice and do not unduly prejudice the normal exploitation of the design, and that mention is made of the source.
- d. the equipment on ships and aircraft registered in another country when these temporarily enter the Hellenic territory;
- e. the importation in Greece of spare parts and accessories for the purpose of repairing such ships or aircraft.
- f. the execution of repairs on such ships or aircraft.

4. By deviation to paragraph 1 above, the rights conferred by the registration of a design or model shall be exercised by third parties who, five years after the first putting on the market of the product to which the design or the model is applied and following the payment of a fair and reasonable remuneration to the owner as agreed by the parties or in case of dispute, as decided by the competent Court provided in the present Presidential Decree, may use it on the following terms:

- a. the product in which the design or the model is incorporated is a spare part of a mechanically operated vehicle, and
- b. said use is intended to allow the repair of a mechanically operated vehicle, and
- c. the public shall be informed of the origin of the product used for the repair under a permanent indication, such as the affixation of a commercial trademark or trade name or by any other suitable means.

5. Whoever uses a design or model or has made the necessary

preparations for its use during the period of registration of an application for a design or model by a third party or during the priority date, shall be entitled to continue its use for his business and its necessities. This right may be transferred only with the business.

6. A registered design or model may be given as security or be the subject of rights in rem or of a confiscation.

Article 27 Scope of Protection

1. The protection conferred by a design or model right shall include any design or model which produces on the informed user a similar impression.

Article 28 Judicial Protection - Actions

1. In any case of an infringement or threatened infringement of a registered design or specimen, the holder of such design or specimen (right holder) may request the lifting of the infringement and its omission in the future. The lifting of the infringement may include, on application by the right holder, indicatively and not restrictively, (a) the recall of the goods that were found to be infringing a right provided for under the present law and, as in appropriate cases, materials principally used in the creation or manufacture of these goods from the channels of commerce, (b) the definitive removal of these goods and materials from the channels of commerce or (c) the destruction of these goods and materials. In considering the application of the previous clause, the need for proportionality between the seriousness of the infringement and the remedies ordered, as well as the interests of third parties, shall be taken into account. The measures provided for under the second clause are carried out at the expense of the infringer, unless particular reasons are invoked for not doing so. The right holder may also exercise the rights provided for under the first clause of the present paragraph against intermediaries whose services are used by a third party to infringe the rights provided for under the present law. For each act of omission contributing to an infringement, the court may impose a monetary penalty of up to ten thousand (10,000.00) Euros in favour of the right

holder, while in all other cases article 947 of the Hellenic Code of Civil Procedure shall apply. In establishing the infringement of the obligation not to act provided for under the preceding clause, the procedure provided for under articles 686 et seq. of the Hellenic Code of Civil Procedure is applied.

2. The provisions set forth in paragraphs 2, 3, 4, 5, 6, and 7 of Article 17 of Hellenic Law No. 1733/1987, as well as those set forth in articles 17A to 17F of the same law, are accordingly applied.

Article 29 Term of Protection of a Registered Design or a Model

1. The term of protection of a registered design or model shall be five years from the date of filing the application at OBI. The term of protection may be renewed for periods of five years each up to a total term of 25 years from the date of filing of the application for the registration of the design or the model.

2. The request for renewal shall be submitted by the holder of a registered design or model or his representative and shall be accompanied by a receipt of payment of the renewal fee at OBI which is payable according to the conditions and procedure provided in Article 2.10g and Article 24 of Law No. 1733/1987 (Official Journal 171, A'). The renewal fee shall be paid in advance within the six month period before the last day of the month in which protection ends.

3. Upon expiration of the period prescribed in paragraph 2 and within a period of six months thereafter, the holder of a registered design or model or his representative may pay the fees due with a 50% surcharge. Failing this, the protection for the registered design or model provided by the present Presidential Decree shall terminate.

4. The renewal shall take effect from the date following the date on which the existing registration expires.

5. The renewal shall be recorded in the Design and Model Register.

CHAPTER FIVE FINAL AND TRANSITIONAL PROVISIONS
