Code	e name	Goods /	service classific	ation		Attribute & Number of digits		C2	
Des	scription	Identific	cation of the class	s to which the (goods and ser	vices belong.			
No	tices	[About 'As for to which reproduct 'About' For the However	About "class" of registration information] As for the "designated product / service name" of the above and registered information, those for which rewrite registration has been made are "class after rewrite registration" and "designated product / service name after rewrite registration" under the international classification. About "class" of trademark release information] For the above, the "international classification" is recorded. (International classification: 01-45) However, "class" = 99 is merely a code for internal processing of the Patent Office, and does not represent an international classification.
