PartVII: EXAMINATION GUIDELINES FOR INVENTIONS IN SPECIFIC FIELDS

Chapter 1 Computer Software-Related Inventions

1. Requirements for Description and Claims	2
1.1 Claim(s)	2
1.1.1 Categories of Software-Related Inventions	2
1.1.2 Notes	3
1.1.3 Examples of Unclear Claimed Inventions	3
1.2 Detailed Description of the Invention	7
1.2.1 Enablement Requirement	7
1.2.1.1 Examples of Violations of Enablement Requirement	7
1.2.1.2 Notes	8
1.2.2 Ministerial Ordinance Requirement	8
2. Requirements for Patentability	10
2.1 Inventions ruled by Patentability Requirements	10
2.2 Statutory Invention	10
2.2.1 Basic Concept	10
2.2.2 Actual Procedure for Judgment	11
2.2.3 Notes	12
2.2.4 "Structured Data" or "Data Structure"	13
2.3 Inventive Step (Nonobviousness)	14
2.3.1 Basic Concept	14
2.3.2 Problems to be solved by the Invention	15
2.3.3 A Person having Ordinary Skill in the Art	15
2.3.4 Examples of Exercising Ordinary Creative Activity expected of a Person having Ordinary Skill in the Art	15
2.3.5 Effects of the Invention	18
2.3.6 Notes	18
3. Examples	20
3.1 Examples of violating Description Requirements (Related to "Information Transmission Medium")	22
3.2 Examples for determination of whether the claimed invention is "statutory" or not	27
3.2.1 Examples for determination of whether Information Processing by Software is concretely realized by using Hardware Resources	27
3.2.2 Reference Examples	51
3.3 Examples for determination of whether the Claimed Invention involves "Inventive Step" or not	57
[Reference] Application of these Guidelines	77

Chapter 2 Biological Inventions

1. Genetic Engineering	1
1.1 Description Requirements of the Specification	1
1.1.1 Scope of Claim	1
1.1.2 Detailed Description of the Invention	4
1.1.2.1 Enablement Requirement	4

English translation was updated in 4.2012

1.1.2.2 Ministerial Ordinance Requirement	9
1.1.2.3 Prior Art and Advantageous Effects	10
1.1.3 Sequence Listing	10
1.2 Unity of Invention	10
1.3 Requirements for Patentability	12
1.3.1 Invention Not Falling under "Industrially Applicable Invention"	12
1.3.2 Novelty	12
1.3.3 Inventive Step	13
1.4 Amendment of Description, Claims or Drawings	14
2. Microorganisms	15
2.1 Description Requirements of the Specification	15
2.1.1 Designation of Microorganisms	15
2.1.2 Scope of Claim	15
2.1.3 Detailed Description of the Invention	15
2.1.3.1 Enablement Requirement	15
2.1.3.2 Ministerial Ordinance Requirement	17
2.2 Requirements for Patentability	18
2.2.1 Invention Not Falling under "Industrially Applicable Invention"	18
2.2.2 Inventive Step	18
2.3 Amendment of Description, Claims or Drawings	19
3. Plants	21
3.1 Description Requirements of the Specification	21
3.1.1 Designation of Plants	21
3.1.2 Scope of Claim	21
3.1.3 Detailed Description of the Invention	21
3.1.3.1 Enablement Requirement	22
3.1.4 Drawings	23
3.2 Requirements for Patentability	24
3.2.1 Invention Not Falling within "Industrially Applicable Invention"	24
3.2.2 Inventive Step	24
3.3 Amendment of Description, Claims or Drawings	24
4. Animals	25
4.1 Description Requirements of the Specification	25
4.1.1 Designation of Animals	25
4.1.2 Scope of Claim	25
4.1.3 Detailed Description of the Invention	25
4.1.3.1 Enablement Requirement	25
4.1.4 Drawings	27
4.2 Requirements for Patentability	27
4.2.1 Invention Not Falling under "Industrially Applicable Invention"	27
4.2.2 Invention Contravening Public Order, Morality or Public Health	28
4.2.3 Inventive Step	28
4.3 Amendment of Description, Claims or Drawings	28
5. Deposit	29
5.1 Deposit and Furnishing of Microorganisms	29
5.2 Deposit and Furnishing of Plants	32

5.3 Deposit and Furnishing of Animals	33
6. Examples of Inventions Relating to Genes	33
6.1 Unity of Invention	33
6.2 Cases Lacking Enablement	33
6.3 Case Lacking Inventive Step	37
6.4 Cases Lacking Both Inventive Step and Enablement	38
6.5 Cases Where Inventive Step is Involved and Enablement Requirement is Satisfied	41
7. Examples of Inventions Relating to Protein Conformation (to be prepared)	43
8. Examples Relating to Judgment of Necessity for Deposit of Microorganisms, etc.	44
8.1 Inventions Relating to Bacteria	45
8.2 Inventions Relating to Antibodies	48
8.3 Inventions Relating to Cells	52
8.4 Inventions Relating to Animals	54
[Appendix 1] The Guidelines for Describing Taxonomic Characters	56
[Appendix 2] (Deleted)	
[Appendix 3] (Omitted)	

Chapter 3 Medicinal Inventions

1. Description Requirements of the Description and the Claims	1
1.1 Claims	1
1.1.1 Article 36(6)(i) of the Patent Act	1
1.1.2 Article 36(6)(ii) of the Patent Act	2
1.2 Detailed Explanation of the Invention	3
1.2.1 Enablement Requirement	3
2. Requirements for Patentability	4
2.1 Industrial Applicability	4
2.2 Novelty	4
2.2.1 Principle of Method of Determining whether a Claimed Medicinal Invention is Novel ..	4
2.2.2 Methods of Judging Novelty	4
2.3 Inventive Step	7
2.3.1 Inventive Step regarding Medicinal Invention	7
2.3.2 Examples of Concrete Practices Regarding Judgment of Inventive Step	7
2.4 Patent Act Article 29-2	9
2.4.1 Application of Patent Act Article 29-2	9
2.4.2 Examples of Concrete Practices Regarding Judgment of Patent Act Article 29-2	9
2.5 Patent Act Article 39	9
2.5.1 Application of Patent Act Article 39	9
2.5.2 Examples of Concrete Practices Regarding Judgment of Patent Act Article 39	9
3. Examples	10
3.1 Medicine characterized in a medicinal use applied to a specific disease	11
3.2 Medicine characterized in a medicinal use of an application to a specific disease in which dosage and administration is specified	15
3.3 Medicine characterized by combination of materials having a specific attribute	18
