

# Action Plan for Utilization of Artificial Intelligence (AI) Technology (FY2022-2026 edition)

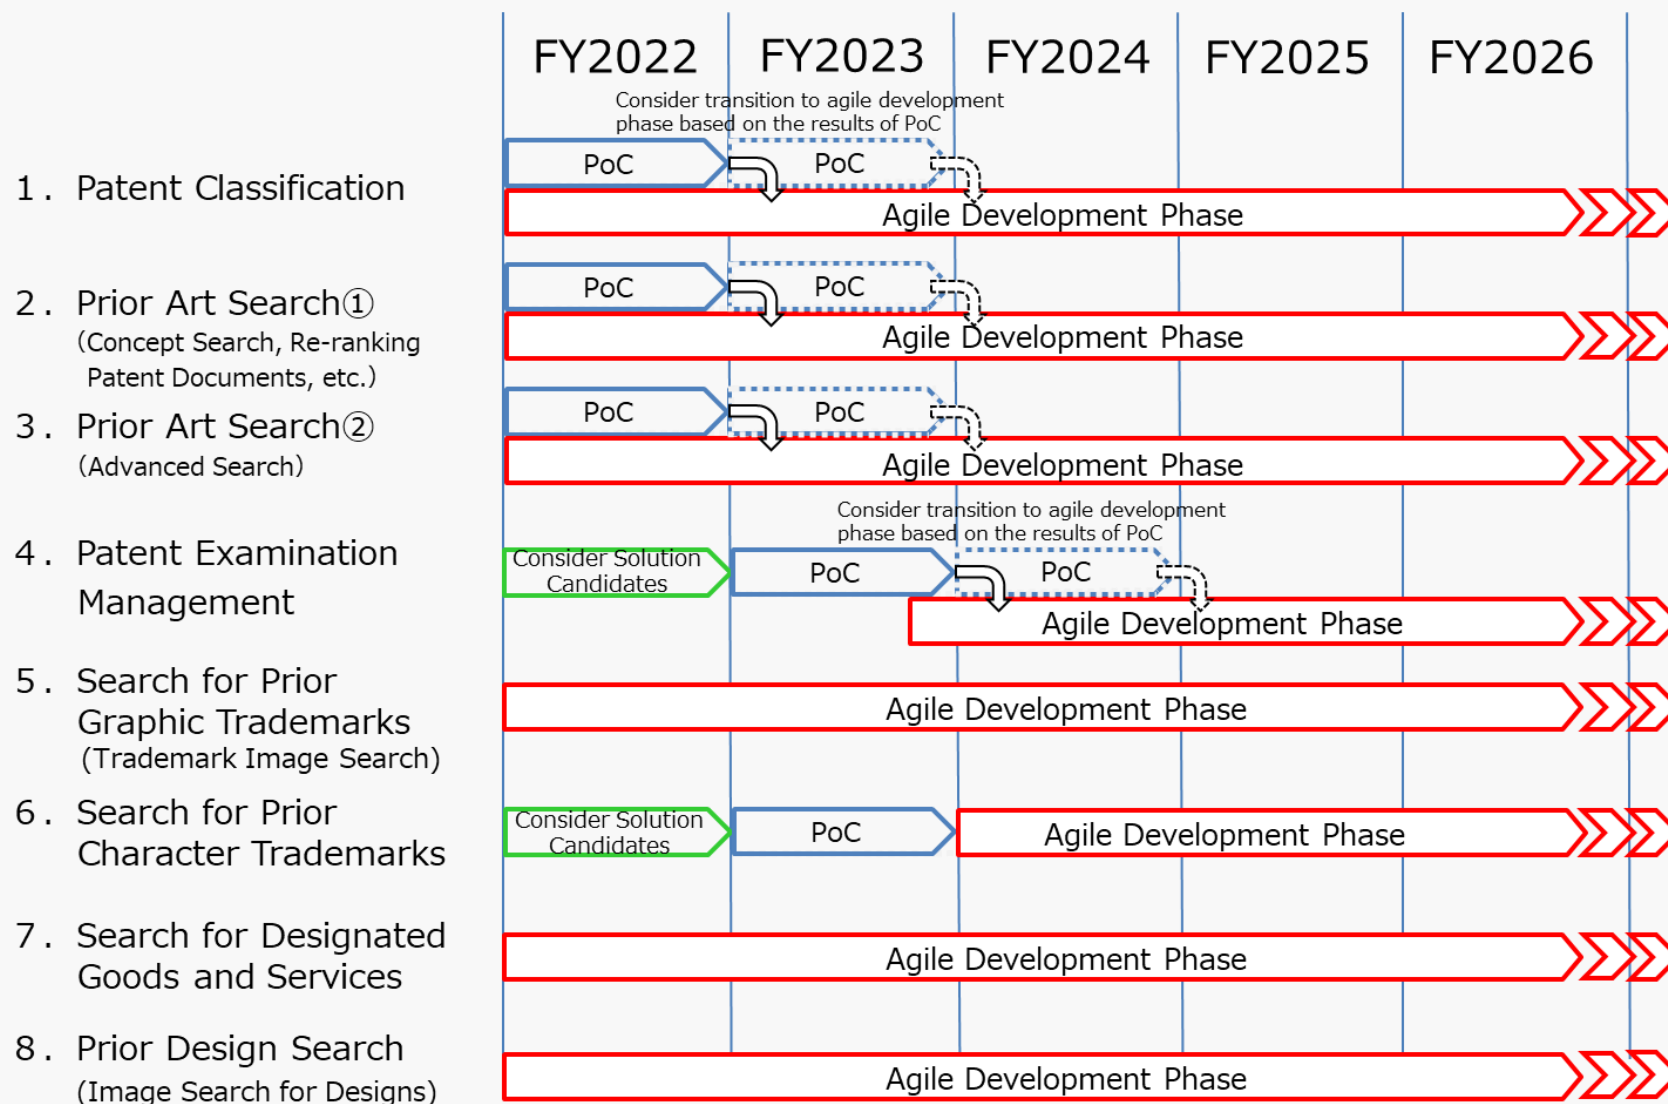

---

June 24, 2022

Project Team for Usefulness Verification of AI-related Technologies

# Action Plan for Utilization of AI technology (FY2022-2026 edition)

## Projects under consideration to be listed in the Action Plan (Appendix: Action Plan)

The following projects will be listed in the Action Plan when they meet certain conditions after preliminary preparations have been made, including the establishment of a staff organization, study of solution candidates, clarification of technical standards, and examination of cost-effectiveness.

- Responding to inquiries by phone, email
- Digitization of paper documents into text data
- Support for confirming the designated goods and services of international trademark applications
- Support for prohibiting public access to certain types of submitted documents
- Suggestion of trademark distinctiveness

(※) There may be changes, such as the addition of new projects to the Appendix or the deletion of projects from Appendix, depending on the results of future consideration.
